Border to Coast Overseas Developed Markets Equity Fund	ING Groep N.V.	4/25/2022	Authority to Issue Shares w/ Preemptive Rights	For	Against	Against Management	ING asks for a mandate to issue shares up to 50% of the issued capital. This is considerably higher than the local guidelines (20%, of which 10% without pre-emptive rights). Our policy is to only approve a higher mandate if a company explains why the higher mandate is necessary. That is not the case in this case, except that ING may need financial flexibility. In recent years, ING has also requested this mandate but has not made use of it.	Annual

Border to Coast Global Equity Alpha Fund	Credit Suisse Group AG	4/29/2022	Shareholder Proposal Regarding Special Audit	Against	Against	With Management	Annual

The company has already provided a good level of transparency in response to the information requested by the proponents, and considering the limitations imposed by ongoing legal proceedings. Given the potential of a special audit's disclosure to prejudice the outcomes of the ongoing legal proceedings, including recovery processes, it is not considered that such an approval would be in shareholders' best interests at this time.

in general, we vote in favor of shareholder proposals requesting more disclosure on a materially relevant topic for the bank. Given Credit Suisse's commitment to becoming net-zero by 2050, further disclosure on their alignment with such a trajectory should be expected in the short and medium term. Recent turnover at the bank also underlines the importance of formalizing this type of disclosure by amending the articles of association. Lastly, we had communication with the proponent prior to the filing of the shareholder proposal and were able to confirm that it was not overly prescriptive.
